

Urology Care

Regain your confidence. Feel whole again.

Issues like poor urination, incontinence or kidney stones can interrupt your daily life and cause physical, emotional and financial burdens. Uncomfortable symptoms, and even the unfortunate news of new cancer diagnoses, can be difficult to discuss, but UChicago Medicine AdventHealth's urology team can address your questions and concerns with expertise and compassion. Using state-of-the-art technology — including minimally invasive surgical options — we'll create a tailored treatment plan that meets your personal needs.

Our urology specialists provide care for a wide range of conditions related to the male and female urinary tract, as well as the male reproductive system.

Urology Care You Can Count On

If you're having urologic issues, you don't have to live with your symptoms. Our urologists treat men and women who are struggling with a wide variety of genitourinary and other conditions. We're here to provide personalized treatment that helps you move forward with comfort and confidence.

CONDITIONS WE TREAT INCLUDE, BUT ARE NOT LIMITED TO:

- | | | |
